Product Description

Electric strapping machine

This electric strapping machine is not only a powerful tool for efficient strapping but also a durable choice that can adapt to various working environments. The adjustable tensile force of 600-3200N is like a tailor-made fastening solution for different goods. Whether it is soft cotton textiles or hard and heavy aluminum materials and bricks, it can apply just the right amount of force to ensure a firm and reliable packing, keeping the goods safe during transportation.

It has excellent compatibility with PET and PP strapping bands that are 13-16mm wide. It can be easily adapted without complex operations, greatly reducing the operational troubles caused by different types of strapping bands and making the strapping process smoother. The 4000mAh battery is like a powerful power source, supporting long-term continuous operation. Even in busy logistics warehouses or production workshops, it can handle high-intensity packaging tasks with ease. The 90-120 minute fast charging process effectively resolves battery anxiety, allowing the device to be ready for operation at any time.

Whether it is a brick factory with a lot of dust, an aluminum workshop that requires meticulous operation, or the assembly line of a cotton mill, or the storage yard of a logistics station, it can all perform stably. Place an order now and we will provide you with the accompanying accessories and detailed instruction manual. This will enable you to master the operation skills quickly without any extra effort, easily improve the packaging efficiency, and inject strong impetus into the production and
